Online Examination system

These days the job creators are very specific about the quality of resources they do hire. In order to examine the individual quality these organizations do analyze the performance of individual candidate as well as institution. On the other hand even with skilled resources and academic excellence a number of institutions remain unexhaled by eminent job providers that ultimately causes the unemployability of major skilled resources. The institutions need a transparent platform where they can present their performance and updates of improvement with real facts for attracting job providers. Considering these requirements, Eduplexus provides a multi-dimensional and highly optimized platform for examining global resources based on industry standards. Our approaches do have immense capability for enhancement in personal as well as professional enrichment.

Few of the dominant features for online examination service segments are as follows:

• Regular aptitude test.
• Online examination for different branches and specialization.
• Thorough analysis of results obtained.
• Candidate profiling based on Grades/marks obtained.
• Group examination, if required.
• Extensive reports generation.
• Profiling and profile sharing across corporate clouds.
• Common platform for profile sharing for all institutions.
• Online guidance and induction programs for optimization and enrichment.
Workshop and Seminar

In this competitive arena it is necessary to have a technology oriented exposures like participation in workshops, presenting research and technical papers or even to participate in conferences and seminars. In spite of these, the participation in other events like sports and cultural activities makes the students well versed with their strengthening fields. Even if with such requirements today we lack a global platform that could present the events and their schedules around the globe so that more participants could be benefited. Students must cope-up with pace of the changing trends in the field of Research & Development and for this Eduplexus is determined to provide them a platform to learn that changing trends by extracting the information about the latest workshops, seminars & other events going on around the globe.

Few of the dominant facilities for event explore are as follows:

- Eduplexus provides world’s best global platform to extract the current information about events like workshop, Seminars, Cultural events, Sports etc...
- Sole platform that could facilitate the information about technical activities going on across the globe with minimum search complexity and user effort.
- Online platform that provides the opportunities to take part in any activity going on without the constraints of location, institutions and direct communication.
- Platform that provides online registration, hall ticket generation and official confirmation for participation in any activities within minutes and even with single click effort.
- World class globalization platform for organizations or institutions functional in the field of workshops, seminars and other events in diverse specializations.
- Single click release of notifications regarding activities to be conducted in specific stream and at numerous locations.
- Globalize your brand with your core strength and specializations to lead you towards pinnacle and shining tomorrow.
- Eduplexus is an authenticated, transparent and genuine data that provides a common platform for Academia-corporate segment for enriching the quality of education and further optimizing overall growth.
